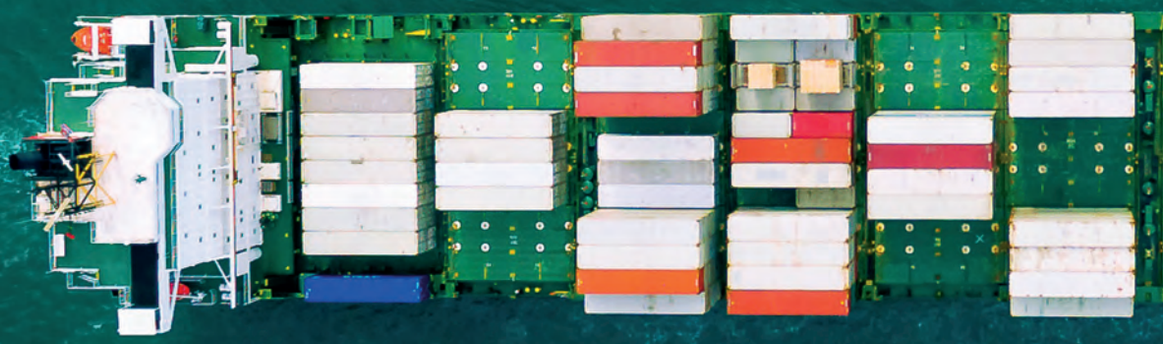
SMART PACK SYSTEM

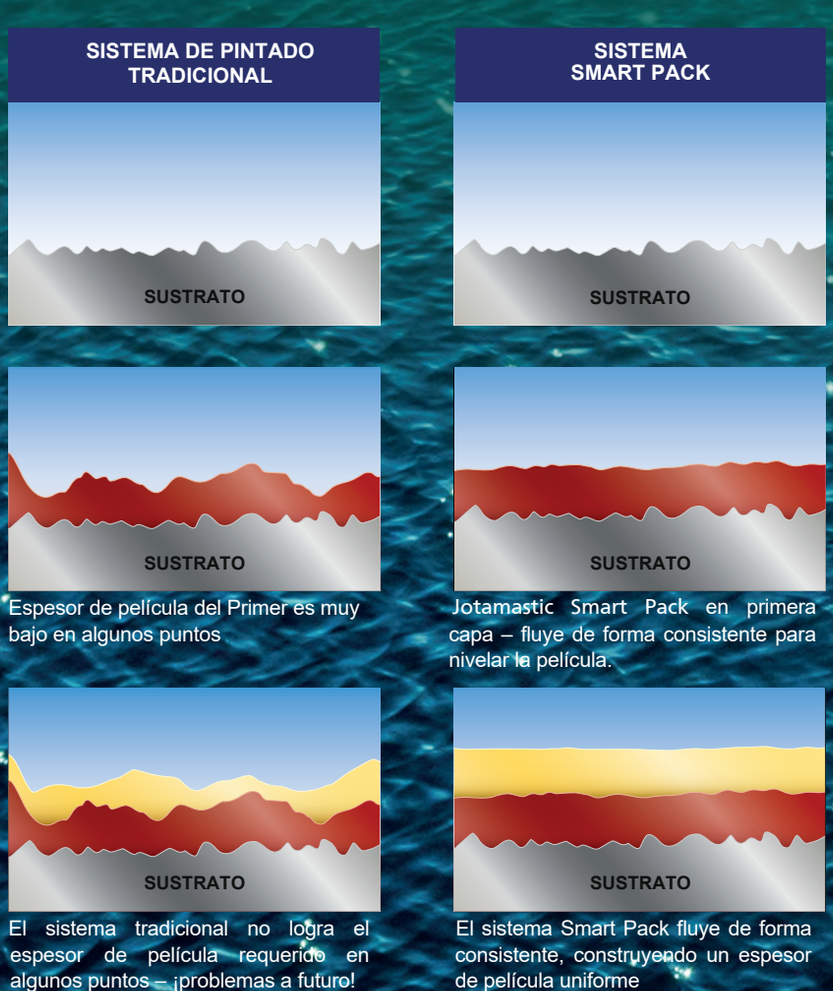
OPTIMIZADO PARA UN MANTENIMIENTO EFICIENTE A BORDO



SMART PACK SYSTEM

Optimizado para un mantenimiento eficiente a bordo

Optimizado tanto para la aplicación con brocha como con rodillo en superficies poco preparadas, Smart Pack System garantiza una película de pintura uniforme y suave sobre el sustrato. Esto es esencial para lograr una protección duradera



Espesor de película del Primer es muy bajo en algunos puntos

Jotamastic Smart Pack en primera capa – fluye de forma consistente para nivelar la película.

El sistema tradicional no logra el espesor de película requerido en algunos puntos – ¡problemas a futuro!

El sistema Smart Pack fluye de forma consistente, construyendo un espesor de película uniforme

- OPTIMIZADO

SISTEMA SMART PACK

Reduce el consumo de pintura

El sistema Smart Pack está diseñado para resolver los desafíos del mantenimiento a bordo sin la molestia de grandes envases de pintura.

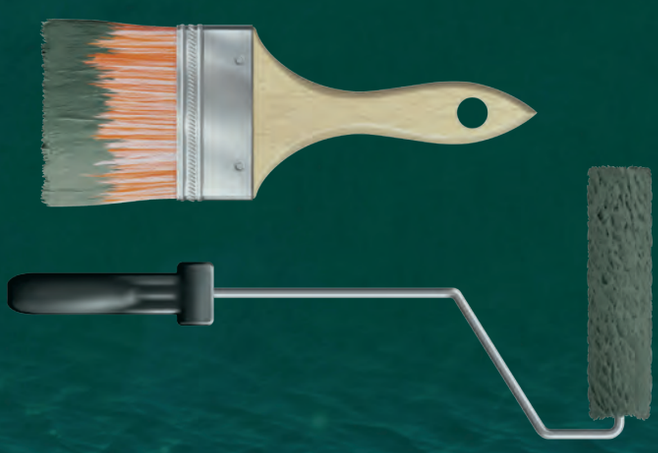
La mezcla es sencilla, rápida y precisa. Debido a que está optimizado para aplicarlo con brocha y rodillo, se logra un grosor uniforme de la película. Esto resulta con menos tiempo perdido, menos pintura desperdiciada y menos dinero al final.

Con más de 9 millones de litros de productos Smart Pack aplicados en todo el mundo, se ha demostrado que sus mayores eficiencias contribuyen a un mejor resultado económico.

SMART PACK SYSTEM
brush and roller

Traditional paints are designed specifically for spray application. Applying these paints by brush or roller will result in uneven coverage, increased risk of corrosion and will shorten the lifetime of the paint system.

Smart Pack System is designed specifically for onboard maintenance application by brush and roller to deliver consistent coverage that penetrates deep into even the poorly prepared surfaces.



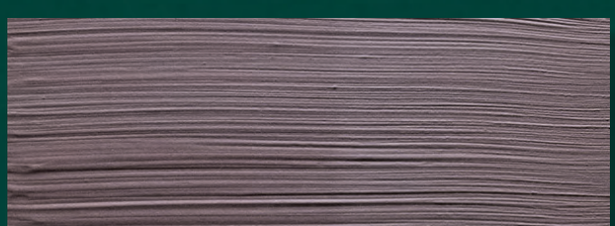
SMART PACK SYSTEM
1:1 mixing ratio

The Smart Pack System simplifies correct paint preparation. While other paints call for complicated mixing ratios, the Smart Pack System has a hassle-free 1:1 mixing ratio. This makes it easier to mix only what is needed, eliminating mixing errors and wastage of the paint, and ensuring the paint performs as it should.

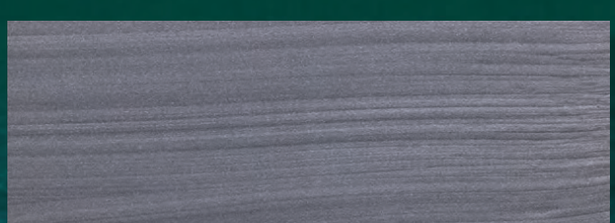
Jotamastic
SMART PACK

Jotamastic Smart Pack is a primer specifically designed to be applied to poorer prepared substrates, typical of onboard maintenance situations.

Jotamastic Smart Pack's excellent flow properties mean a smoother, better protective film by both brush and roller.



A traditional primer with an uneven film thickness due to it's poor flow characteristics



Jotamastic Smart Pack clearly illustrates the smooth consistent paint film achieved

Hardtop
SMART PACK

Hardtop Smart Pack is a isocyanate free topcoat that provides good colour stability and lasting gloss. Available in a virtually unlimited colour choice, it will, together with Jotamastic Smart Pack, deliver lasting protection with excellent cosmetic appearance.

JOTUN

Jotun Protects Property

A GLOBAL PROVIDER OF COATINGS

We have 63 companies and 37 production facilities on all continents, and are represented in over 100 countries.

Our operations cover development, production, marketing, R&D and sales of paints and coatings to protect and decorate surfaces in residential, shipping and industrial markets.

UNIFORM STANDARD ACROSS THE GLOBE

- Easy to exchange trained technical personnel across national borders and multi-national projects.
- Compulsory training for all technical and sales personnel in marine and protective segments. Most of our coating advisors and technical personnel have FROSIO and/or NACE certification.
- Same competence in maintaining company standard procedures globally.

Jotun GreenSteps

FOR A MORE COLOURFUL WORLD, WE ALL NEED TO BE A LITTLE GREENER

Jotun recognises the responsibility it has to the environment and has established its own GreenSteps programme.

Through the GreenSteps programme we address market demand for more sustainable coatings solutions.

- Reducing VOC emissions
- Reducing hazardous materials
- Reducing energy consumption
- Reducing carbon footprint
- Reducing waste
